How Watch Cases are Made.

In 1875, thirteen men comprised the

entire working force used in the manufacture of the James Boss' Gold Watch Case. Now over five hundred are employed, and the number is constantly increasing. The reason of this increase is this: In the James Boss' Gold Watch Case all the metal in sight and subject to wear is wild gold while the re-

and subject to wear is solid gold, while the re-mainder, which only lends strength to the

case, is of stronger metal than gold, giving gold where gold is needed, and strong, elastic metal where strength and elasticity are needed, a combination producing a watch case better than solid gold

Cincinnati, Washington and Baltimore HOOD'S SARSAPARILLA

Has "decided" claims upon the public. This is positively proven by the immense good it has done to those who have been cured of diseases from which they have suffered intensely for years, as verified by the published testimonials, every one of which is a positive fact.

CHELSEA, VT., Feb. 24, 1879.

MESSRS. C. I. HOOD & Co., Lowell, Mass.: The 6th day of last June I was taken sisk with a swelling on my right foot, and with an awful pain. The swelling went all over me. My face was swelled so that I could with difficulty see out of my eyes, and I broke out over the whole surface of my body; my right foot up to my knee was one raw, itching mass, and my ankle and foot so lame and sore I could not step on it, and it would run so as to wet a bandage through in an hour. In this condition Mr. W. F. Hood (of the firm of A. R. Hood & Son, druggists, of this town), handed me a bottle of HooD's SARSAPARII-I.A., and told me to take it. I did so, and by the time I had taken one bottle i found that it was doing me good. I have since taken five bottles more. After I had taken three bottles my soreness began to leave me, and I have been growing better every day, so that to-day I can walk without going lame. I have no soreness in my ankle and it has healed all up, and does not run at all. I owe my recovery to your Sarsaparilla. I write this to let you know that I think it deserves the confidence of the public, especially thosq who are troubled with humors.

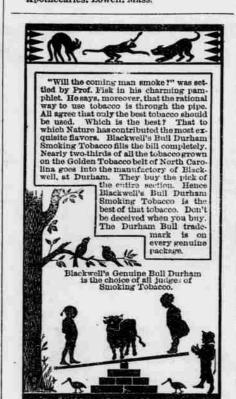

Yours most truly.

JOSIAH PITKIN.

P. S. Every person that saw me said that I never would get over my lameness without having a running sore on my ankle; but thank God I have.

Athlophoros

THE TAX SECTION ASSESSMENT OF THE PROPERTY OF THE PARTY O

Атигорновоз is the first and only medicine which has carried off the prize as the perfect remedy for Rheunatism and Neuralgia.

Like two relentless tyrants they have for ages held their suffering victims in an iron rrip. These poor sufferers have been as slaves in the power of their oppressors. ATHLOPHOROS has entered the arena, engaged in conflict with the monaters, and won the victory. As the compelitors in the Grecian games of old could win only by the most severe trials games of old could win only by the most severe trials of ability and endurance, so ATHLORIGOROUS has won the prize, not alone by giving temporary relief, but by bringing an enduring cure, as well, to those who have suffered the excuclating agenies of Rheuma-tism and Neuralgia.

ATHLOPHOROS is a novelty, not only in name, but in its elements. It is unlike any preparation yet introduced. ATHLOPHOROS acts on the blood, muscles and joints, removing the potent and acid from the blood, carries them out of the system.

ATHLOPHOROS is put up with consummate skill, and contains nothing that can possibly harm the most delicate constitution.

Now, do you want to suffer on and on?

"Athlophoros" WILL Cure You If you cannot get Athlornonos of your drug-gist, we will send it express paid, on receipt of regular price-one dollar per bottle. A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my langs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried Ayea's Chearay Pectoral, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the Pectoral a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your Cherry Pectoral saved me.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of Ayen's Cherry Pectoral, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the Cherry Pectoral had saved my darling's life. Can you wonder at our gratitude? Sincercity yours,

Bad Work of a Jury!

GUILTY OF MANSLAUGHTER!

A short time ago a livery stable keeper named Kirk was murdered, in Cincinnati, by two employes-Berner and Palmer—who deliberately planned the murder for the purpose of getting money which Kirk was believed to an express wagon and hauled the body over a great portion of the city, looking for a place to conceal it.

They were arrested, and Berner confessed to the murder, claiming that Palmer intimidated him into being an accomplice. Palmer is a mulatto boy, Berner a German.

Berner had a trial last week, and dict would be murder in the first degree. He had confessed the murder, every circumstance went to show the horrible features of the crime, the evidence was conclusive, "beyond a reasonable doubt." Yet the jury returned a verdict for "manslaughter." This aroused such a feeling of indignation that the jurymen had to steal out the back way to escape from the Court House, and there was much talk of lynching-not only the murderer, but the jury.

It is claimed, and with some show of reason, that corrupt means were used to influence the jury. Berner was either guilty of murder in the first degree, or he was not guilty of anything, and this verdict tends to render the Court a farce—but a dangerous one. Cincinnati has quite a number of murderers shut up in jail, reformatory measure. awaiting trial. This verdict sends a ray of hope to them, at the same time that it creates a feeling of terror in the community. It is no wonder that the Revised Statutes of Ohio. the press of Cincinnati declare that the name of "murderer" is a passport General Assembly of the State of to respect and honor. A very dear friend took us to task few evenings ago, for the custom, prevalent among reporters of public executions, of saying that the culprit 'died like a brave man."
